PROFESSIONAL EXPERIENCE

Software Developer

BNP Paribas

Nov 2025 – Present | Chennai, India

- Building and maintaining enterprise banking applications using Spring Boot, JRF backend framework, Angular, Solar frontend framework, SOAP/REST services, and SQL databases.
- Collaborating with cross-functional teams in Agile environments to deliver scalable and secure solutions.

Full Stack Developer

Codeboard Technology

08/2021 – 09/2024 | Chennai, India

- Architected and developed secure, scalable logistics and banking platforms using Spring Boot (microservices) and Angular, strengthening authentication and access control with JWT and OAuth 2.0.
- Developed and deployed 20+ responsive, cross-browser pages with Angular Material, Bootstrap, HTML5, and CSS3.
- Optimized performance through caching, lazy loading, and SonarQube-driven code quality checks.
- Contributed to banking, logistics, workflow automation, and compliance applications.

Test Engineer

Maveric Systems Limited

06/2021 – 08/2021 | Chennai, India

- Designed and executed comprehensive test cases, test data, and defect logs while preparing detailed test design/execution status reports for stakeholder review.
- Presented test results to stakeholders and mentored junior testers, ensuring quality delivery and improving overall team efficiency.

Software Tester (Annotation QA)

Amazon Development Centre India Pvt.Ltd.

07/2019 – 06/2020 | Chennai, India

- Reviewed annotated data using test cases and validation rules to ensure data accuracy.
- Performed quality checks using defined test cases, achieving >95% accuracy in delivered datasets.

EDUCATION

Bachelor of Engineering

Jeppiaar Engineering College

08/2011 – 04/2018 | Chennai, India

Aeronautical Engineering
